TECHNICAL SKILLS

- **Programming Languages:** C, Java, PHP
- **Tools:** MS-Office, GIT, Linux Scripting, Autosys Job Scheduling, SQL.
- **Additional Courses:** Completed 12 months Computer Hardware and Networking training at Foremost Computers

PROJECTS

- Worked in Morgan Stanley Account in Institutional Securities Tech Division from Aug, 2019 to June, 2020. I worked as a Software Engineer on Linux Scripting and Autosys(A job scheduling tool).
- **Question Paper Designer (B.Tech Project, 5th Semester)** Designed a website that facilitates creation of question papers according to the modules in the university. Most of the important questions, topic-wise categorized were stored on the website database and the authentic user can access these questions. The whole website was developed using PHP and HTML, CSS.
- **CapStore, an E-commerce website developed as a Spring Boot project:** The whole website was divided into different modules and I developed the 'Merchant and Product Inventory' module in which I developed the functionality of CRUD operation on product and merchants.

INDUSTRIAL EXPERIENCE

- **Web Development Intern, Internsala (June – August, 2016):** Undergone a six week online summer training on Web Development. The training program consists of HTML & CSS, Bootstrap, SQL and PHP modules.
- **Internship at Capgemini India Pvt. Ltd. Pune (Jan-April'19):** Successfully completed three months training consisting of Core Java, Spring 5, Oracle and Behavior-Driven Development (BDD) testing. All the five modules were successfully completed.

LEADERSHIP ROLES

- **Coordinator at Maitree 17, All India Sports Festival (24-26th March 2017):** Maitree is the annual All India Sports festival of GLA University, Mathura organized by GLA Students.
- **Coordinator at Fresher's Party 2016 (Sept,5 2016):** Successfully Co-ordinated the Fresher's party. The experience was great meeting the new people.

ACHIEVEMENTS

- **Oracle Java Associate(OCA) certified, Oct 15, 2019**
- Successfully complete 12 months training in Basic Computer including MS Office, Tally 7.2 and Photoshop in 2012.
